

## Specimen Creek Natural Avalanche

Specimen Creek  
Southern Gallatin  
12/26/2020  
Code  
SS-N-R1  
Latitude  
45.02650  
Longitude  
-111.04800  
Notes

From email: "Went for a tour today on specimen ridge in yellowstone park. Stuck to terrain well below 30 degrees. Widespread whumphs throughout tour. Cracking and collapsing snowpack on small convexities. Observed multiple small avalanches on windloaded slopes. I believe they were triggered remotely by game."
